About

AMBayArea

LOCAL. CONNECTION. INFORMATION

The Association of Manufacturers Bay Area (AMBayArea) provides manufacturers with local connection and information to ensure the industry thrives. We achieve this through events, thought leadership, and partnerships.

NETWORKING

AMBayArea events offer Bay Area manufacturing leaders a chance to come together and network. Held at various locations across the region, these events make it convenient for manufacturers in different cities to participate. Attendees have the opportunity to reconnect with peers and forge new relationships, including with community resources and service providers that support the manufacturing industry.

THOUGHT LEADERSHIP

AMBayArea events offer manufacturers the chance to hear from subject matter experts, professional speakers, and national and state representatives. Attendees also gain insights from peers who share best practices and case studies. Information is delivered through keynote presentations, breakout sessions, and panel discussions, providing valuable knowledge for manufacturers across various industries, from food production to high-tech sectors.

Our Sponsors

KEY PARTNERS

Sponsors are key to funding AMBayArea programs, which provide manufacturers with essential thought leadership and networking opportunities that help drive the ongoing success of local businesses. By providing financial backing, sponsors enable AMBayArea to engage expert speakers and empower initiatives that foster growth, innovation, and operational improvements across the industry.

Additionally, the support helps fund workforce development initiatives, which are essential for preparing the next generation of skilled workers. These initiatives include scholarships for students pursuing careers in the skilled trades, ensuring that the manufacturing sector has a steady pipeline of qualified talent. Through these efforts, sponsors strengthen local businesses, which contributes to the long-term sustainability of the region's economy.

What Our Sponsors Say

“

AMBayArea put on a wonderful event with great content and information for manufacturing business owners. I was able to make a lot of connections and meet the C-Suite and even gained a new client that needed our services and help with risk mitigation and compliance. It was a very successful event all around and I gained a lot of new relationships that will be very fruitful moving forward.
